

AHMED HASSAN BUTT

Software Developer — PHP / JavaScript / MySQL

Kharian, Pakistan | +92 302 6113987 | ahmedhassanbutt8887@gmail.com | linkedin.com/in/ahmed-hassan-butt-717b833a6 | github.com/ahmed-8887

PROFESSIONAL SUMMARY

Software Developer with hands-on experience building web applications, business-management software, and WordPress sites using PHP, JavaScript, and MySQL. Delivered production systems across POS, catering-management, and factory-management domains, owning features from requirements through deployment. Skilled at translating client requirements into clean, maintainable, scalable code.

SKILLS

Languages & Databases: PHP, JavaScript, MySQL, SQL

Frameworks & Concepts: REST APIs, MVC principles, Responsive Web Design, Relational Database Design

Tools & Platforms: WordPress, Elementor, Git, GitHub, VS Code

Core Competencies: Software Development, UI Implementation, Requirements Gathering, Debugging & Testing, Version Control

WORK EXPERIENCE

Software Developer | Alhamad Digital Services, Kharian, Pakistan

Jan 2026 – Present

- Develop and maintain custom web-based software solutions for business clients using PHP, JavaScript, and MySQL, taking features from requirements to deployment.
- Built BIRI, a point-of-sale (POS) system supporting retail transaction processing and inventory tracking.
- Developed Caterify (catering-management platform) and FMS (factory-management system), owning feature design through implementation.
- Partner directly with clients to translate business requirements into functional, scalable software features, reducing revision cycles through clearer upfront scoping.

Software Development Intern | ADAN IT Center, Gujrat, Pakistan

Jul 2025 – Dec 2025

- Assisted in developing and testing software applications under the guidance of senior developers using PHP, MySQL, and JavaScript.
- Supported debugging and QA efforts that improved application reliability ahead of client handoff.

Web Developer | Muhammad Hassan Digital Services, Kharian, Pakistan

May 2024 – Jun 2025

- Built and maintained responsive client websites using WordPress, Elementor, and JavaScript, customizing themes and plugins to meet client specifications.
- Managed site deployment, updates, and troubleshooting, maintaining consistent uptime and performance for client sites.

WordPress Designer | AB Consultants, Kharian, Pakistan

Sep 2022 – Feb 2024

- Designed and built WordPress websites using Elementor, implementing responsive layouts that improved visitor engagement and usability.
- Consulted directly with clients to gather requirements and deliver sites aligned with their branding.
